ABOUT US

ABOUT ORGANIZATION:

- KLE College of Pharmacy was established in 1968 in the pleasant environs of J. N Medical College, Belgaum, with the aim of providing quality education in pharmaceutical sciences.
- The courses started with, Diploma in Pharmacy (1968) followed by B. Pharm (1975), M. Pharm (1988), the Ph. D Programmes (2000), M. Sc. in Clinical Pharmacy (2013) and eventually Pharm. D (2014).
- The institution became a constituent unit of KLE Academy of Higher Education and Research, Belagavi, [Deemed-to-be University] in 2009.
- Over the past 50 years of its existence the college has transformed in to a centre of academic excellence, which is evident by unique milestones such as **NBA** and **NAAC** accreditation.
- KLE Academy of Higher Education and Research, Belagavi, [Deemed-to-be University] has been accredited with A+ (A Plus) Grade by National Assessment and Accreditation Council (NAAC) 3rd cycle.
- The institution is ranked **40th** among Pharmacy colleges all over India by NIRF (MHRD) in 2021, and was ranked **22nd** consecutively in 2018 & 2019.
- All courses at the institute are recognized by the **Pharmacy Council of India (PCI)** and **AICTE**. The institute has a strong alumni association with over 2000 active members, who are placed globally at various positions in academics, Clinical, Industrial, Regulatory and Entrepreneurial services.
- The institute is also recognized as a **Quality Improvement Program (QIP)** Nodal Centre and recognized as **Continuing Education in Pharmacy (CEP)** centre by Pharmacy Council of India. It is only one of the two colleges in Karnataka to get students under the QIP program
- **Dr. Sunil S. Jalalpure** is officiating as Principal and the college is fortunate to have at its helm. College is adequately supported by well-qualified and well trained staff in every department.

ABOUT DEPT.OF PHARMACY PRACTICE:

The Pharmacy Practice, a patient oriented course, was started at KLE College of Pharmacy, Belagavi in the year 2000-2001. The Department of Pharmacy Practice is located at the **KLE Dr. Prabhakar Kore Hospital and Medical Research Center, Belagavi**, which is a 2200 bed multi specialty teaching hospital. The main objective of the department is to provide students hands on experience in clinical research, Clinical Pharmacy Practice, community pharmacy practice, and Unit Dosage Formulation / Dose division. Hospital Pharmacy Postings (OPD/ Bulk Pharmacy), Participation in health camps as part of community activities, Prescription Analysis, BP measurement and monitoring, and Apart from regular course work Flexibility to pursue training.

Highlights of Department of Pharmacy Practice:

A) Model Pharmacy/Managed Care Pharmacy :

“Best practices that offer quality care & cost-effective coverage to patients”

Managed care pharmacy is well positioned to bring change in health care system by providing Patient Care, Reducing Medication Errors Advising Patient on Safe & Rational Drug Use.

B. Pharmacovigilance Centre

- Dept. Pharmacy Practice is recognized by IPC-NCC, Ghaziabad under PvPI.
- Monitoring and reporting of ADRs (ICSRs) from health care professionals, Pharm D interns, Nurses and Non-AMC hospitals.
- ADR Case Reports entered into VigiFlow Data Base.
- Training to the Pharm D 5th year and Pharm D interns on reporting ADR case reports in VigiFlow Database.
- Causality assessment for each reported ADR care reports by causality assessment committee.

C) Unit dosage formulation/Dose division:

- Right drug at the right time. Individualization of doses is important for desired clinical effects and good patient care.
- Our department is extensively rendering the solid dose division services to the patients in NICU, PICU, cardiology and nephrology department.

D) Site Management Office:

- KAHER Site Management Organization (SMO) provides clinical trial related services to medical device company, Pharmaceutical Sponsors and its representative. This has adequate infrastructure and staff to meet the requirements of the clinical trial protocol
- SMO also perpetrates as a service provider for investigators at our hospital, towards all spheres of implementation of clinical trials. Use of a SMO can also help the investigator concentrate on the patient recruitment, reducing the burden of the investigator and cost.
- IEC with Dept, of Pharmacy Practice conduct regular ICH- GCP training and workshops for interns, students.
- KLE is imparting MSc in clinical research, fellowship programs in clinical research and conducts regular orientation in bioethics
- Pharm D interns are posted in SMO and get well trained in clinical trials.

E) Primary Health Centers (PHC)

- Clinical Pharmacist, as the first point of contact for the public are becoming increasingly involved in primary health care providing access to medications and chronic disease management services.
- They are also involved in public health through delivery of smoking cessation, cardiovascular screening and immunization programs.
- Disease surveillance and epidemic control convergence with disease control program data collection, recording and management and weekly clinics for specialized care.

F) Total Parenteral Nutrition:

- Total parenteral nutrition involves the intravenous administration of nutritionally sufficient and balanced formulations to supply essential nutrition to patients who are unable to tolerate oral or external feeding due to dysfunctional or inaccessible gastrointestinal tract, over the years

G) COMMUNITY PHARMACY:

- Community pharmacist are often on the first line of health care. In addition to dispensing medications and monitoring patients for adverse effects and interacting drugs, pharmacist provide important counselling services, such as proper selection of over-the-counter medications and/or referral to other health care providers. Today's pharmacist also must be versed in alternative medicines.
- Students are posted in Pradhan MantriBhartiya Jan Aushadi started by KLE College of Pharmacy and Dept. of Pharmacy Practice as it gives quality medicines at affordable prices and also an opportunity for the students to experience the practice on community settings and improve their knowledge and skills in various aspects like:

1. Prescription analysis

3. Health promotion

5. Dispensing of medicines

2. Monitoring of drug utilization

4. Medication errors monitoring

6. Pharmaceutical care practice.
